

OMEGA SPEAKER SYSTEMS

SUPER 3 XRS

(shown in Macassar Ebony)

Super 3 XRS Specifications	
Sensitivity	93dB at 8 ohms
Impedance	8 ohms
Driver	Proprietary 4.5" Omega HempCone
Frequency Response	40-18KHz
Dimensions	27" H x 11"W x 7.5"D
Weight	30 lbs. each
Power Requirement	as little as 2 watts
Cross-over	None
Warranty	10 year parts and labor for workmanship and defects

The Super 3 XRS (eXtended response system) uses a 4.5" Proprietary Omega HempCone full-range driver that is made for Omega Speaker Systems. These drivers incorporate a very light cone and very strong motor to produce high sensitivity, speed, transparency, and excellent detail with amazing low level resolution. The Super 3 XRS is a perfect point-source and is phase correct. Imaging and soundstage reproduction are exceptional. The wide baffle construction improves midrange smoothness and tonality in the critical mid-range. The Super 3 XRS interacts with the room to extend the bass output and the built-in, adjustable tilt allows for even better soundstaging. The Super 3 XRS incorporates custom Omega vibration damping techniques that include: The Omega re-bond dampening, a mass-loaded chamber, and a triple layer semi floating baffle and back.

Fast and accurate bass and tonal balance. No corner or close to wall placements needed.

Piano Black Lacquer platforms available. 2 layers of 3/4" maple bullnosed and finished in Piano Black Gloss. Brass cones included

Cabinet Specifications

- Ported, mass-loaded, single driver floor standing
- Composite (Ultralight MDF, Baltic Birch, and Phenolic)
- Magnet Speaker Grills (does not use grill sockets for a much cleaner appearance)
- 2" Precision flared single port
- Internal wiring -- Omega cabling, standard
- Terminals -- Heavy duty, multi-way, gold plated binding posts
- Available Finishes: Zebrawood, Maccasar Ebony, Mahogany, Black Oak/Cherry 2-tone, Italian Alpine Gold Pearl 2-tone, Italian Alpine Gold, Italian Red Gloss
